

# Y-Valve Education Pilot Program

Washington State Department of Ecology

## Data Collection Form

Marina or Yacht Club Name: \_\_\_\_\_

Date of inspection: \_\_\_\_\_

### Instructions:

- Please track each vessel inspection conducted during the Pilot (**June 2022 - September 2023**)
- Before inspection, bring this form, a dye tab packet, zip tie and a No Discharge Zone brochure/information provided.
- For each inspection, place a check mark in the appropriate box.
- Ecology's Pilot Coordinator will collect forms when they check in with you during the Pilot and at the end of the Pilot.
- After adding the dye tab and flushing, please make sure Y-Valve is in the closed position (and zip-tied if boaters agree) by the time you deboard.

	Date of Inspection	Liveaboard	Seasonal moorage	Full time moorage	Guest (Short stays)	Y-Valve found open	Y-Valve closed	No Y-Valve in system	Zip-tie added	No Dye visible	Dye visible	NDZ info given
