Notice to Withdraw Rulemaking

The Department of Ecology is withdrawing its notice of rulemaking (Preproposal Statement of Inquiry CR-101 form) filed July 2, 2013, AO #13-04, WSR 13-14-105.

Ecology proposed to amend Chapter 173-491 WAC – Emissions standards and controls for sources emitting gasoline vapors. This rule establishes standards for the control of air contaminants emitted from gasoline marketing sources. The rule applies to gasoline marketing operations, which include the storage, transport, and transfer of gasoline.

We began this rulemaking eight years ago to update the statewide Stage I requirements for gas stations. We paused rule development to work on higher priority rulemakings. After reviewing the CR-101 form, we have determined that we would need to expand the scope of this rulemaking if we were to proceed in the future, so we are withdrawing this notice.

For more information, contact Jason Alberich at (360) 764-6663 or jason.alberich@ecy.wa.gov.
