Any other findings required by other provisions of law as precondition to adoption or effectiveness of rule?

- Yes No If Yes, explain:

Purpose: Ecology is adopting the fourth emergency rule – Chapter 173-443 WAC, Hydrofluorocarbons (HFCs) – to establish requirements to reduce greenhouse gases in Washington by moving to the phased use of less damaging HFCs or acceptable substitutes.

The emergency rule requires manufacturers, importers, and distributors to notify Ecology about their products and equipment containing HFCs and other substitutes. The initial deadline was December 31, 2019. More notifications are due when new restrictions apply between 2020 and 2024.

We changed the restriction deadline for vending machines from January 1, 2020, to January 1, 2022, in the first emergency rule. We continue to adopt the 2022 date because we determined that the new date reduces the overall risk to human health and the environment. It also reflects the earliest date that a lower risk substitute is potentially available as allowed by RCW 70.235.080(3)(a).

The emergency rule will be in effect for up to 120 days starting June 25, 2020, replacing the one adopted on March 16, 2020. There are no rule changes from the previous emergency rules.

Ecology adopted the following emergency rules:

- First emergency rule: July 30, 2019 (WSR 19-16-059)
- Second emergency rule: Nov. 21, 2019 (WSR 19-24-005)
- Third emergency rule: March 16, 2020 (WSR 20-07-076)

Ecology began a rulemaking process for the permanent adoption of the rule when we filed the first emergency rule. We will continue to adopt an emergency rule until the permanent rule takes effect by December 2020.

EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
- That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: Chapter 284, Laws of 2019 (ESSHB 1112) was signed into law on May 7, 2019. The law amends Chapter 70.235 RCW. It establishes a deadline of December 31, 2019, for manufacturers, importers, and distributors of products and equipment containing HFCs to submit an initial report to Ecology. It also sets restriction deadlines for specific end-use categories. This rule establishes the method to notify Ecology by the deadlines.

**Note: If any category is left blank, it will be calculated as zero.
No descriptive text.**

**Count by whole WAC sections only, from the WAC number through the history note.
A section may be counted in more than one category.**
