

Have you submitted your DMR?

DISCHARGE

MONITORING

REPORTS

What exactly is a DMR?

Facilities with NPDES or State Waste Discharge permits are required to monitor the discharge from their facility and to submit reports to Ecology about this discharge. These reports are known as **DMRs**. The report requirements differ by permit type and water body.

How do I get a DMR or Submit results?

<http://www.ecology.wa.gov/Regulations-Permits/Guidance-technical-assistance/Water-quality-permits-database>

Already have a DMR? Web DMR User guide

<https://fortress.wa.gov/ecy/publications/summarypages/1110036.html>

If you are required to conduct water quality sampling, you **MUST** submit results to Ecology!
