Ecology is extending the public comment period by 30 days in response to request from stakeholders.

*"The draft rule and the guidance document total hundreds of pages. An extension of the comment period is warranted given the length of the document, the implications of the rule, and complexity of the issues. Also, during the summer it is harder for jurisdictions, utilities, and committees to coordinate review and offer comment. The extended comment period will allow stakeholders to thoroughly review the proposed rule and provide meaningful feedback."*
