RE: Order Docket No. 15584
Clean Air Rule Baseline Establishment Order

Dear Darrell Soyars:

Attached is the Clean Air Rule Baseline Establishment Order for Avista Corp LDC. You are receiving this order because the reported covered emissions of greenhouse gas (GHG) from your operations covered by the Clean Air Rule during the reporting years 2012-2016 were greater than 100,000 metric tons of carbon dioxide equivalent (CO₂e) per year. These are the emissions that would be emitted from the complete combustion or oxidation of the products supplied in the state of Washington, and not the process emissions from the production of these products. Those emissions are covered in a separate baseline establishment order.

This order includes your emissions reduction requirements and other compliance, recordkeeping, and reporting requirements that you must follow.

You have the right to appeal this order. The requirements to file an appeal are contained in Condition 20 of the order.

If you have any questions about this order, please contact me by phone at (360) 407-7624 or email at ben.blank@ecy.wa.gov. You may also contact Chris Conn by phone at (360) 407-6519 or email at chris.conn@ecy.wa.gov.

Sincerely,

Ben Blank
Climate Policy Section Manager
Air Quality Program

CLEAN AIR RULE BASELINE ESTABLISHMENT ORDER

Issued To:

Avista Corp.
Avista Corp LDC
1411 E Mission
Spokane, WA 99220-3727

Date Order Issued:
December 18, 2017

Regulatory Order Number:
15584

Date(s) Order Revised:
N/A

This Clean Air Rule Baseline Establishment Order is issued under the authority of the:

- Washington State Clean Air Act, Chapter 70.94 Revised Code of Washington.
- Washington State Department of Ecology regulations for the Reporting of Emissions of Greenhouse Gases as set forth in Chapter 173-441, Washington Administrative Code
- Washington State Department of Ecology regulations for the Clean Air Rule as set forth in Chapter 173-442, Washington Administrative Code.

Findings

- A. Avista Corp. operates a natural gas local distribution company (LDC), Avista Corp LDC, in the state of Washington and is a covered party as defined in Washington Administrative Code (WAC) 173-442-020.
- B. The covered party is subject to the greenhouse gas (GHG) emissions reporting requirements of WAC Chapter 173-441.
- C. This order only addresses CO₂ emissions that would result from the complete combustion or oxidation of supplied products as defined in WAC 173-442-020. This order does not include process-related emissions from the production of products.
- D. During the period of 2012-2016 Avista Corp LDC had reported annual GHG emissions that averaged above 100,000 metric tons of carbon dioxide equivalent (CO₂e). The covered party is therefore subject to the requirements of WAC Chapter 173-442.
- E. The covered party does not meet the criteria in WAC 173-442-020 to be defined as an energy intensive and trade exposed (EITE) covered party.

Baseline Emissions

1. Ecology has determined the baseline emissions for Avista Corp LDC are 1,172,598 metric tons CO₂e/year. The calculations of the baseline emissions are described in the support documentation for this order.

Emission Reduction Requirement

2. The emission reduction requirement is defined as a covered party's GHG emissions limit for a compliance period as defined in WAC 173-442-020.
3. The GHG emissions from Avista Corp LDC must be limited to the baseline emissions in the first year of the first compliance period.
4. The GHG emissions from Avista Corp LDC must be limited to a reduction from the baseline emissions of an average reduction rate of 1.7% per year starting in the second year of the first compliance period.
5. The reduction rate for Avista Corp LDC, starting in the second year of the first compliance period is 19,934 MT CO₂e/year.
6. At the end of each compliance period, covered GHG emissions from Avista Corp LDC must be below the limits listed in Table 1.

Table 1: Emission Reduction Requirement

Compliance Period (Calendar Years)	Three Year Total Emissions Limit (MT CO ₂ e)
2017-2019	3,457,993
2020-2022	3,278,585
2023-2025	3,099,178
2026-2028	2,919,770
2029-2031	2,740,362

Compliance Period (Calendar Years)	Three Year Total Emissions Limit (MT CO _{2e})
2032-2034	2,560,955
2035 and every three years thereafter	2,441,350

Demonstrating Compliance

7. The compliance obligations are calculated per the methods defined in WAC 173-442-200.
8. Covered parties must demonstrate compliance by submitting:
 - a. Actual emission reductions as exhibited in annual GHG reporting data as defined in WAC chapter 173-441 by required date as defined in WAC 173-441-050;
 - b. Banked Emission Reduction Units (ERUs) as defined in WAC 173-442-120 by required date as defined in WAC 173-442-250; or
 - c. A combination of (a) and (b) of this subsection that achieves a level meeting the compliance obligation.
9. Covered parties must document compliance consistent with the requirements in WAC 173-442-210.

Recordkeeping

10. Covered parties must monitor emissions and other parameters as required in WAC 173-441-050 and in methodologies adopted by reference in WAC 173-441-120.
11. Emissions data, evidence of emissions reductions, and ERU records must be retained per the requirements in WAC 173-441 and WAC 173-442.
12. Monitoring and recordkeeping data required to complete the emission reports and compliance reports required by WAC 173-441 and WAC 173-442 must be available for inspection by ecology inspectors and authorized third party verifiers consistent with the requirements in WAC 173-441-050.

Third-Party Verification

13. Annual emissions reports are subject to the third-party verification processes in WAC 173-441-085.
14. Compliance reports are subject to third-party verification requirements of WAC 173-442-220.
15. Projects used to generate ERUs must meet the requirements contained within WAC 173-442-160. Projects must meet the third-party verification requirements in WAC 173-442-220.

General Conditions

16. Right of Entry
Chapter 70.94, Revised Code of Washington, and WAC 173-400-105(3) provide authorized representatives of Ecology certain rights to enter and inspect the source. Refusal by the covered party to allow such entry and inspection may be a violation of

state law subject to penalty as provided in the statute. Pursuant to this statute, authorized representatives of Ecology, upon the presentation of credentials:

- A. Have a right of entry to, upon, or through any premises of the covered party or any premises in which any records required by the covered party to maintain are located.
- B. Have the right, during normal business hours, to access and copy any records the covered party is required to maintain.
- C. Have the right, at reasonable times, to inspect any monitoring equipment or method required by the covered party to determine emissions and compliance.
- D. Have the right, at reasonable times, to sample any emissions that the covered party is required to sample to determine greenhouse gasses emitted by the covered party.

17. Revisions to this Order

This order may be revised on request of the covered party. The request must be in writing and provide a full explanation of what revision is requested, any and all necessary calculations to support the request, the provision of WAC 173-442 or WAC 173-441 that allows for the change, and the covered party's interpretation of the effects of the change on the covered party's baseline emissions and emission reduction requirement.

This order may be revised by Ecology based on findings in verification reports, changes to emissions calculation methodologies, correction of errors, or assigned emissions levels per WAC 173-441-086.

If Ecology agrees with the covered party or determines that a revision is required, Ecology will issue a revised Order.

18. Transfer of Ownership

- A. In the event of any changes in control or ownership of the covered party or facility, the requirements of this Order will be binding on all subsequent owners and operators. The covered party must notify the succeeding owner and operator of the existence of this Order and its conditions by letter. A copy of the letter must be forwarded to Ecology at the same time it is sent to the succeeding owner or operator.
- B. If this order has been incorporated into an Air Operating Permit issued pursuant to chapter WAC 173-401, the provisions for amending that Air Operating Permit to change ownership or operational control shall apply in place of the notification provisions above.
- C. The new owner of the covered party or facility must update its certificate of representation required by WAC 173-441 to reflect the new ownership of the covered

Order No. 15584
Issued: December 18, 2017

party or facility and establish new designated representatives in conjunction with the new ownership.

19. Correspondence

A. Mailing Address:

Right to Appeal this Order

20. You have the right to appeal this Order to the Pollution Control Hearings Board (PCHB) within 30 days of the date of receipt of this Order. The appeal process is governed by Chapter 43.21B RCW and Chapter 371-08 WAC. "Date of receipt" is defined in RCW 43.21B.001(2).

To appeal you must do all of the following within 30 days of the date of receipt of this Order:

- File your appeal and a copy of this Order with the PCHB (see addresses below). Filing means actual receipt by the PCHB during regular business hours.
- Serve a copy of your appeal and this Order on Ecology in paper form - by mail or in person. (See addresses below.) E-mail is not accepted.

You must also comply with other applicable requirements in Chapter 43.21B RCW and Chapter 371-08 WAC.

Baseline Establishment Order Support Document

The purpose of this document is to explain how the baseline emission and reduction requirements have been established for Avista Corp LDC.

Facility Information

Avista Corp LDC is a natural gas local distribution company administered in Spokane, WA Primary North American Industry Classification System (NAICS) Code: 221210

Determination of Greenhouse Gas (GHG) Baseline Emissions

The baseline emissions for this LDC were collected through GHG emissions data reported to Ecology as required by Washington Administrative Code (WAC) Chapter 173-441 for the reporting years 2012-2016. Emissions data is reported in metric tons of carbon dioxide equivalent (MT CO_{2e}).

The following table lists the covered greenhouse gas emissions reported to Ecology from Avista Corp LDC for calendar years 2012-2016.

Table 1: Baseline Emissions

Year	Covered GHG Emissions, MT CO _{2e}	Adjusted by Ecology (Y/N)	Used to calculate Baseline (Y/N)
2012	1,174,532	Yes	Yes
2013	1,243,089	Yes	Yes
2014	1,204,317	Yes	Yes
2015	1,096,524	Yes	Yes
2016	1,144,530	Yes	Yes
Baseline	1,172,598		

Ecology adjusted or did not use the indicated year(s) to determine the baseline emissions for this facility:

All years were adjusted to include CAR-eligible emissions from fuels supplied to large customers that do not receive a CAR baseline or are not in CAR at this time. The GHG emissions for these sources are the quantity that would be emitted from the complete combustion or oxidation of the products supplied.

The baseline emissions are defined as the average reported GHG emissions from the baseline period that have not been excluded per WAC 173-442-040. Ecology has determined the baseline CO_{2e} emissions for Avista Corp LDC to be 1,172,598 MT CO_{2e}.

Because baseline emissions are greater than 70,000 MT CO_{2e}, the facility is subject to the provisions of WAC Chapter 173-442 (Clean Air Rule).

Emissions Limits and Emissions Reduction Pathway

The emissions reduction pathway is based on the requirements in WAC 173-442-060. Table 2 shows the annual emissions reductions pathway for Avista Corp LDC and Table 3 shows the

Baseline Establishment Order 15584

Issued: December 18, 2017

three year total emissions allowed in each compliance period. The emissions limits for Avista Corp LDC decrease at an annual rate of 1.7% per year beginning in the second year of the first compliance period as shown in Table 2.

Table 2: Emission Reduction Pathway

Calendar Year	Calculated Annual Emissions Limit (MT CO ₂ e)
2017	1,172,598
2018	1,152,664
2019	1,132,730
2020	1,112,796
2021	1,092,862
2022	1,072,928
2023	1,052,993
2024	1,033,059
2025	1,013,125
2026	993,191
2027	973,257
2028	953,322
2029	933,388
2030	913,454
2031	893,520
2032	873,586
2033	853,652
2034	833,717
2035 (and all subsequent years)	813,783

Compliance periods are three year periods at the end of which the covered party must demonstrate that it met its GHG emissions reduction requirement. The emissions reduction requirement is the total emissions allowed over a three year compliance period. The emissions limit is the sum of the calculated annual emissions limits over a compliance period. Avista Corp LDC’s compliance period maximum allowable emissions are shown in Table 3. Compliance may be demonstrated by actual emissions reductions or by retiring emission reduction units (ERUs).

Table 3: Emission Reduction Requirement

Compliance Period (Calendar Years)	Three Year Total Emissions Limit (MT CO ₂ e)
2017-2019	3,457,993
2020-2022	3,278,585
2023-2025	3,099,178
2026-2028	2,919,770
2029-2031	2,740,362

Baseline Establishment Order 15584

Issued: December 18, 2017

Compliance Period (Calendar Years)	Three Year Total Emissions Limit (MT CO ₂ e)
2032-2034	2,560,955
