Re: Town of Steilacoom 2017 SMP Limited Amendment

Dear Kim:

Enclosed are two sets of the following documents demonstrating the Town's intent to update its Shoreline Master Program to incorporate recent changes in its Critical Areas Ordinance. As per your suggestion in March, the Town has amended its Critical Areas Ordinance to reference the federal wetland delineation manuals, and that amendment is included in the SMP update.

1. Attached is a signed copy of Resolution 1154, in which the Town Council declared its intent to adopt certain amendments to the Shoreline Master Program by including the Town's Critical Areas Ordinance, as amended.
2. Attachment A to Resolution 1154 includes a strikethrough version of the updates to both the SMP and the Critical Areas Ordinance.
3. None of the SMP maps are amended by this action, so no maps are included in this submittal.
4. A summary of the proposed changes is attached.
5. The Town's Determination of Non-significance is attached.
6. Evidence of public notice of the SEPA determination, Planning Commission hearing, and Town Council hearing are attached.
7. The Town received no comments on the DNS or the substance of the proposal.
8. A completed Shoreline Master Program Submittal Checklist.

I have emailed you a copy of the Resolution including Exhibit A in Word format. Please let me know if you need anything else. Thank you.

Sincerely,

Doug Fortner  
Town Planner
