

Attachment D: Jefferson County June 22, 2011 SMP

Ecology Required Changes Addendum

The following changes are required to comply with the SMA (RCW 90.58) and the SMP Guidelines (WAC 173-26, Part III):

ITEM	DRAFT SMP Provision (Cite)	TOPIC	BILL FORMAT CHANGES (underline = additions; strikethrough = deletions)	DISCUSSION/RATIONALE
15	Shoreline Map #3	Shoreline jurisdiction and designation	<u>Remove the ASB Treatment Facility as a shoreline of the state, and remove High Intensity shoreline Designation on surrounding uplands except for man-made dike which separates ASB from neighboring freshwater lagoon. Also see attached map.</u>	Based on close review of present circumstances relative to newly published Ecology guidance that relates, we concluded that shoreline jurisdiction should not be applied to the ASB facility because it meets criteria, as explained in Findings and Conclusions addendum.
