

SSM Stakeholder Meeting

November 29, 2017

1:30 pm to 2:30 pm

Call in number: (360) 407-3780

Security code: 172223 #

Agenda

Rulemaking issues from our last meeting

- Addressed issues regarding confusing connections between several sections
 - Alternative opacity limit for hog-fuel and wood fired boilers (pg 40-41)
 - Clarified that Ecology Method 9A as the opacity compliance methodology (pg 41)
 - Furnace refractory (pg 43)

- Removed
 - Existing exception for SO₂ because this is required by the EPA SIP action pg 46
 - Alternative emission standard for sulfur dioxide for a sulfur recover unit because issues remain unresolved (pg 46)

- Did not include the CAS for the list of exceptions in the definition of volatile organic compound
