

June 12, 2019

Dear Kat and Holli,

Thank you for teaching us about estuaries! I had a wonderful experience there! My favorite part was where I could see the barnacles and plankton under the super-powerful microscope. I learned a lot there too, like there were more snails in our estuary than there were humans in the world!

I hope I can visit Padilla Bay again!

Bye, and

Sincerely,

Sophie

Drawing at bottom of the letter includes an estuary, eelgrass, snails, and a crab.
