RE: Ferry County Coalition – SMP Update Submittal
Grant Agreement No. G1200053

Dear Mr. Sikes:

In accordance with Grant Agreement G1400613, and for Ecology's review and formal action, I am submitting a complete draft of the locally-approved SMPs and supporting documents, per WAC 173-26-110, for the Ferry County Coalition. The Coalition jurisdictions in this submittal include Ferry County and the City of Republic.

Ferry County and the City of Republic submitted joint hearing notices and held joint public hearings. Cooperative supporting documents have been prepared for the Ferry County Coalition. All submittals were submitted on behalf of both Ferry County and the City of Republic.

Consistent with WAC 173-26-186(8)(d), the Cumulative Impacts Analysis (January, 2015), concludes that the Coalition's SMPs will protect the baseline ecological functions within Ferry County and the City of Republic. The Cumulative Impacts Analysis further concludes that implementation of the SMP provisions and the restoration initiatives identified in the Restoration Plan (October 2015) throughout the next 20 years are expected to result in no net loss of shoreline ecological function and may actually lead to an improvement or gain of ecological function over time.

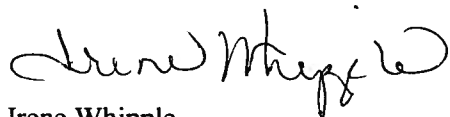

Deliverables – In accordance with WAC 173-26-110, the following items are attached for Ecology's review and formal action (1 hard copy, 1 electronic copy, as noted below):

1. Memo/letter documenting the scope and intent of proposal; list of attachments
2. Signed ordinance or resolution: Ferry County and City of Republic Ordinances (pdf)
3. New SMP text (since repeal and replace) (pdf & MS Word); New Official Shoreline Designation map(s) at a scale that goes to the parcel level in order to determine the boundaries between shoreline designations. (pdf and GIS files)
