

Washington Administrative Code 197-11-800

(2) Other minor new construction.

(a) The exemptions in this subsection apply to all licenses required to undertake the following types of proposals except when the project:

(i) Is undertaken wholly or partly on lands covered by water;

(ii) Requires a license governing discharges to water that is not exempt under RCW [43.21C.0383](#);

(iii) Requires a license governing emissions to air that is not exempt under RCW [43.21C.0381](#) or WAC 197-11-800 (7) or (8); or

(iv) Requires a land use decision that is not exempt under WAC 197-11-800(6).

(b) The construction or designation of bus stops, loading zones, shelters, access facilities and pull-out lanes for taxicabs, transit and school vehicles.

(c) The construction and/or installation of commercial on-premise signs, and public signs and signals serving the public interest, including those for traffic control and wayfinding.

(d) The construction or installation of minor road and street improvements by any agency or private party that include the following:

(i) Safety structures and equipment: Such as pavement marking, traffic-calming structures, freeway surveillance and control systems, railroad protective devices (not including grade-separated crossings), grooving, glare screen, safety barriers, energy attenuators;

(ii) Transportation corridor landscaping (including the application of state of Washington approved herbicides by licensed personnel for right of way weed control as long as this is not within watersheds controlled for the purpose of drinking water quality in accordance with WAC [248-54-660](#));

(iii) Temporary traffic controls and detours;

(iv) Correction of substandard curves and intersections within existing rights of way, widening of a highway by less than a single lane width where capacity is not significantly increased and no new right of way is required;

(v) Adding auxiliary lanes for localized purposes, (weaving, climbing, speed change, etc.), where capacity is not significantly increased and no new right of way is required;

(vi) Channelization and elimination of sight restrictions at intersections, street lighting, guard rails and barricade installation;

(vii) Installation of catch basins and culverts for the purposes of road and street improvements;

(viii) Reconstruction of existing roadbed (existing curb-to-curb in urban locations), including adding or widening of shoulders where capacity is not increased and no new right of way is required;

(ix) Addition of bicycle lanes, paths and facilities, and pedestrian walks and paths, but not including additional automobile lanes.

(x) Operational modifications to an existing roadway network including speed limit designations, rechannelization, designation of transit-only lanes, adding or removing turn restrictions, designating roadways as one-way or two-way.

Commented [MSM1]: We also have a question about whether we should specify an exemption for Green Stormwater Infrastructure, or if that is already covered in the exemption for utilities (197-11-800(23)).

restricting or allowing motor vehicle access, and converting underused right-of-way for public gathering space.

(e) Grading, excavating, filling, septic tank installations, and landscaping necessary for any building or facility exempted by subsections (1) and (2) of this section, as well as fencing and the construction of small structures and minor facilities accessory thereto.

(f) Additions or modifications to or replacement of any building or facility exempted by subsections (1) and (2) of this section when such addition, modification or replacement will not change the character of the building or facility in a way that would remove it from an exempt class.

(g) The demolition of any structure or facility, the construction of which would be exempted by subsections (1) and (2) of this section, except for structures or facilities with recognized historical significance such as listing in a historic register.

(h) The installation or removal of impervious underground or above-ground tanks, having a total capacity of 10,000 gallons or less except on agricultural and industrial lands. On agricultural and industrial lands, the installation or removal of impervious underground or above-ground tanks, having a total capacity of 60,000 gallons or less.

(i) The vacation of streets or roads.

(j) The installation of hydrological measuring devices, regardless of whether or not on lands covered by water.

(k) The installation of any property, boundary or survey marker, other than fences, regardless of whether or not on lands covered by water.

(l) The installation of accessory solar energy generation equipment on or attached to existing structures and facilities whereby the existing footprint and size of the building is not increased.
