TRI-PARTY AGREEMENT AGENCIES - PUBLIC INVOLVEMENT CALENDAR – Fall/Winter 2017-2018

<b>Hanford Regulatory Public Involvement (PI)</b>			
<b>Regulation</b>	<a href="#"><u>RCRA*</u></a>	<a href="#"><u>CERCLA**</u></a>	<a href="#"><u>Tri-Party Agreement</u></a>
What does it do?	Manages cleanup of hazardous and mixed (hazardous and radioactive) waste~	Authorizes cleanup of hazardous waste sites	Guiding document for <a href="#"><u>Hanford</u></a> cleanup
Who is the lead regulatory agency?	<a href="#"><u>WA Department of Ecology</u></a>	<a href="#"><u>U.S. Environmental Protection Agency</u></a>	All three agencies negotiate TPA changes
What are the PI opportunities?	Hanford permit actions	Proposed Plans on remedial actions and EE/CAs^ for removal actions	“Significant” changes to the TPA require comment period
How long are the comment periods^^?	60 days (Class 2) 60 days + 45 days (Class 3)***	30 days	45 days
Is a public meeting required?	Yes	No (can be requested)	No (can be requested)
Do the agencies issue a formal response to comments received?	Yes	Yes	Yes

\*Resource Conservation and Recovery Act. Ecology is authorized by the U.S. Environmental Protection Agency to implement the federal hazardous waste rules in Washington, where they are called the [Dangerous Waste Regulations](#).

\*\*Comprehensive Environmental Response, Compensation and Liability Act (aka Superfund)

\*\*\*Class 3 permit changes require two comment periods. The first is held by the U.S. Department of Energy (permittee) on the permit application/modification request; the second is held by Ecology on the permitting decision.

~Hazardous/Mixed Waste – Hazardous waste is (non-radioactive) waste that is dangerous or potentially harmful to human health or the environment. Hazardous wastes can be liquids, solids, gases, or sludges. Hazardous waste comingled with waste containing radioactive constituents is called mixed waste. Hazardous and mixed waste are managed under RCRA.

^Engineering Evaluation/Cost Analysis – The purpose of an EE/CA is to summarize cleanup alternatives for waste sites under a “non-time critical” removal action and recommend one of the alternatives. It is similar to a CERCLA proposed plan for a remedial action.

^^Public comment periods may be extended upon request
