**Purpose of the proposal and its anticipated effects, including any changes in existing rules:** Ecology is proposing a new chapter for generation, distribution, and use of reclaimed water – Chapter 173-219 WAC Reclaimed Water. This chapter clarifies regulatory authorities and requirements, streamlines permit application and permitting process, and provides clarity for permittees. The rule will codify existing practices, clarify statutory requirements, and replace 1997 Water Reclamation and Reuse Standards.

Also available for review and comment is the proposed guidance document Reclaimed Water Treatment Facilities Manual: The Purple Book.

This and other rulemaking documents can be found here  

**Reasons supporting proposal:** The state Legislature amended chapter 90.46 RCW in 2006 directing Ecology to coordinate with Department of Health to implement a rule to encourage reclaimed water use and address all aspects of reclaimed water use.

**Statutory authority for adoption:** RCW 90.46.015
