

Errata Sheet for redline version of the formal draft 2019 Municipal Stormwater Permits

Released on August 15, 2018

Ecology has been made aware of several discrepancies between the blackline version of the proposed formal draft 2019 Municipal Stormwater Permits and the redline versions prepared to assist review and shows the changes compared to the current permit language.

Phase I Permit:

1. *S.5.C.6.c.i (page 29)*. Redline version: “Annual Report” should be “SWMP,” as shown in the blackline version.
2. *S.5.C.7.d (page 31)*. The redline version incorrectly states December 31, 2023. The correct date is December 31, 2022, as shown in the blackline version.

Eastern WA Phase II Permit:

1. *S.5.B.6(h) (page 31)*. The redline version incorrectly omitted the following sentence that was deleted from the blackline version: “~~Generic Stormwater Pollution Prevention Plans that can be applied at multiple sites may be used to comply with this requirement.~~”

Western WA Phase II Permit:

No known discrepancies at this time.
