

The following changes are necessary to comply with the SMA (RCW 90.58) and the SMP Guidelines (WAC 173-26, Part III)

ITEM	SMP PROVISION	TOPIC	BILL FORMAT CHANGES [ <u>underline-additions</u> ; <del>striketrough-deletions</del> ]	ECOLOGY - DISCUSSION/RATIONALE
1	Section 1.06.01 Page 4	Shoreline Jurisdiction	The following waterbodies are subject to the city of Hoquiam’s SMP: Grays Harbor, the East Fork Hoquiam River, the Hoquiam River, the Little Hoquiam River, and <u>tidal portions of Fry Creek</u> .	Consistent with RCW 90.58.030(2)(e) and (f) and WAC 173-22 and WAC 173-26-201(2)(a) Fry Creek is within shoreline jurisdiction because it is within the Ordinary High Water Mark of Grays Harbor. It does not independently meet the criteria to be a shoreline waterbody. Revisions clarify this.
