

October 25, 2017 Permit Register Entries

The Air Operating Permit audit committee will meet on Mon., Nov. 6, 2017, from 10 a.m. to 11 a.m. to discuss performance audit recommendations. The public is welcome to attend.

Ecology allocates its permit administration costs and its share of development and oversight costs among the permit program sources for whom it acts as permitting authority. These costs are distributed equally between three tiers:

Tier 1: The number of sources under its jurisdiction.

Tier 2: The complexity of the sources under its jurisdiction.

Tier 3: The size of the sources under its jurisdiction, as measured by the quantity of each regulated pollutant (for fee calculation) emitted.

By October 31 of each year, Ecology must post the basis for the complexity level (Tier 2) determination. For fiscal year 2018, Ecology will allocate complexity level costs to each source based on the hours of permit oversight provided to each source during the prior year.
