**WASHINGTON DEPARTMENT OF ECOLOGY
NOTICE OF APPLICATION FOR A PROPOSED AIR POLLUTION SOURCE**

Zodiac Cabin & Structures, located at 501 N Newport Ave, Newport, WA, specializes in the manufacturer of composites used for structural and cabin components in the aerospace industry. A July 2015 incident required updating existing facility conditions, including replacing the previous treater with an improved treater and locating it in a new position at the facility. Ecology also required that emission estimates reflect Best Available Control Technology for Toxics. Ecology determined that Zodiac has satisfied all of the requirements of New Source Review for its facility in Newport. Ecology finds that the project will have no significant adverse impact on air quality.

Where to Find Information: Copies of project documents are available for review at:

- www.ecy.wa.gov and search “ERO Air Permits”
- Newport City Hall, 200 S. Washington Ave, Newport, WA

The public is invited to comment on this action. Written comments will be accepted from **August 8, 2017 through September 8, 2017**. A public hearing will be held if Ecology determines there is significant public interest. Comments may be submitted online at <http://ac.ecology.commentinput.com/?id=gx28j>, or mailed or emailed to Kari Johnson, Department of Ecology, Air Quality Program, 4601 N. Monroe, Spokane, WA 99205, kari.johnson@ecy.wa.gov.
