

Water Quality Program

Workshops for State Fiscal Year 2020 Water Quality Financial Assistance

The Washington State Department of Ecology is holding workshops to provide information about the state’s combined water quality grant and loan funding cycle and to review the State Fiscal Year 2020 application process for the following funding sources:

- Clean Water Act State Revolving Fund Loan Program
- Centennial Clean Water Grant Program
- Clean Water Act Section 319 Nonpoint Source Grant Program
- Stormwater Financial Assistance Grant Program

If you attend you will get the most up-to-date information on the funding cycle and how to apply, including how to use Ecology’s web-based grant and loan management system, Ecology Administration of Grants and Loans (EAGL). You can also speak with Ecology staff and get answers to your questions about the application process.

Funding Cycle Schedule

Applicants can submit applications beginning August 13, 2018. All applications must be submitted by 5:00pm on October 15, 2018. See the figure on the next page for more information.

Workshop Schedule

9:00am – 9:30am	Program overview and information on what’s new for this funding cycle.
9:30am – 10:00am	EAGL overview, including the new mapping form.
10:00am – 1:00pm	Breakout sessions for wastewater facility projects, nonpoint activity projects, and stormwater projects—including application details, scoring criteria, and other important information.
Note: Light refreshments will be provided but not lunch.	

Who can apply for funding?

Public entities, including: counties, cities, and towns; water and sewer districts; port districts; conservation districts; irrigation districts; school districts; federally recognized tribes; and Washington State institutions of higher education if the project is not included in the institution’s statutory responsibilities; nonprofit organizations (eligible for Section 319 funds only).

What are eligible project types?

Projects to improve and protect Washington’s water quality, including wastewater facilities, stormwater facilities and activities, nonpoint source pollution control activities, onsite sewage system repair and replacement programs.

LOCATIONS, DATES, INFORMATION
