

Biosolids Facility List

Note: Facilities that export biosolids into the jurisdiction of the State of Washington may be subject to fees and permit requirements, depending on the purpose.

Instructions to Operator: Find your facility below and confirm the sections of the permit that Ecology has identified as applicable. Ecology identified the permit sections that apply, based on operations under the previous general permit and the Notice of Intent submitted by the facility in 2020.

Facilities are responsible for consulting this list and confirming their placement in the permitting system. If you think the permit sections reflected below are incorrect, or if your facility is not listed, please contact your regional coordinator.

Permit #	Facility Name	Applicable Permit Section(s)	Counties Where Land Applying (if applicable)
BT8054	33575 PARK LAKE LAG (LAURENTS SUN VILLAGE RESORT LAG)	Baseline	N/A
BA0037192	ABERDEEN WWTP	Baseline, Active Biosolids	N/A
BT0501	ACE ACME SEPTIC	Baseline, Active Biosolids	N/A
BT1203	AIRWAY HEIGHTS WRP	Baseline	N/A
BA0022608	ALBION WWTP	Baseline	N/A
