RE: Functionally Equivalent SAFL Baffle

Dear Mr. Lennander:

The Washington State Department of Ecology (Ecology) finds the SAFL Baffle to be a proprietary structural device functionally equivalent to a Catch Basin Insert. While this product does not meet Washington's water quality performance criteria, they may be used in retrofit situations to provide some level of TSS removal.

A copy of this letter will be posted on Ecology's website at
<http://www.ecy.wa.gov/programs/wq/stormwater/newtech/equivalent.html>.

If you have any questions, please contact me at douglas.howie@ecy.wa.gov, or (360) 407-6444.

Sincerely,

Douglas C. Howie, P.E.
Stormwater Engineer
Water Quality Program
