

Public engagement opportunities from April to September

EITE advisory groups meetings, public meeting, and comment period

As Ecology prepares the report to the Legislature on EITE allowance allocation for 2035-2050, we'll host a series of meetings with interested parties and the public during Summer 2025.

The table below includes the advisory meeting schedules for the EITE Industries Advisory Group (IAG) and the EITE Policy Advisory Group (PAG), which include a public comment opportunity at the end. The table also includes details on other public meetings and links to provide written comments.

If you'd like to attend a meeting, please click the meeting registration link in the right column and sign up on Zoom. After registering, you will receive a confirmation email with information about how to access the meeting by computer or by telephone. Please contact CCEITEIndustries@ecy.wa.gov if you do not receive a confirmation email or have questions.

Date	Meeting name and agenda items	Registration
