

## Certificate of Compliance: For Compliance Deadline: May 1, 2024

Per- and Polyfluorinated Alkyl Substances (PFAS) in Plant  
Fiber-Based Food Packaging

As of May 1, 2024, manufacturers that produce any of the following items must fill out this certificate:

- Bags and sleeves.
- Bowls.
- Flat service ware (including items like plates and trays).
- Open-top containers (including items like French Fry cartons and food cups).
- Closed containers (including items like clamshells).

Keep this certificate as long as the packaging is in use and for three years after its last sale or distribution.

This certificate must be provided if requested.

Our food packaging or packaging component is in compliance with the Washington State RCW 70A.222.070 as described in [Ecology's First Alternatives Assessment](#).

- A list of all products included in this certification is attached to this certificate. The certification includes the brand, product name, and UPC or similar identifying code under which it is sold.
- (Optional) Attached to this certificate is a documentation that the packaging or packaging components do not contain any intentionally added PFAS chemicals.

Food packaging manufactured by our company is not sold in Washington State.

**COMPANY NAME:** \_\_\_\_\_

**ADDRESS:** \_\_\_\_\_

### CERTIFICATION:

I, \_\_\_\_\_ (legibly print name), am \_\_\_\_\_ (title) for the above-named business and I am duly authorized to make this certification. I certify under penalty of perjury under the laws of the State of Washington that the information provided to complete this form is true and correct, to the best of my knowledge.

Dated \_\_\_\_\_ (Day/Month/Year), at \_\_\_\_\_ (City, State).

**Signature:** \_\_\_\_\_
