Ferndale, WA 98248

RE: Vista Materials Mulch and Wattles: Functionally Equivalent Designation

Dear Mr. Blume:

The Washington State Department of Ecology (Ecology) finds the Vista Materials Mulch and Wattle produced at your facility is functionally equivalent to BMP C121 Mulching and BMP C235 Wattles as described in the 2024 Stormwater Management Manual for Western Washington (SWMMWW) and the 2024 Stormwater Management Manual for Eastern Washington (SWMMEW).

Ecology does not endorse this product or its manufacturer.

Contractors may use the Vista Materials Mulch and Wattles at construction sites without seeking additional Ecology approval. Installers must follow manufacturer installation and maintenance recommendations.

For more information, please contact me at [douglas.howie@ecy.wa.gov](mailto:douglas.howie@ecy.wa.gov) or (360) 870-0983.

Sincerely,

*Douglas C. Howie*

## 9 – Natural

Construction	Tubular Knit	
Properties	Fiber Material	Tencel
	Color	Off White
	Approx. Life Expectancy*	12 Months
	Roll Weight	54 lbs.
	Roll Length	3000 ft.
	Strength	41 psi
	Shape	Diamond
	Hole Opening Size	1/4"

### Biodegradability:

Tencel is a wood based yarn.

\*Life Expectancy will vary with your type of application, region and local climatic conditions and should be used as a guideline.

All information supplied is considered to be true and accurate. Any non-standard conditions that may affect the application of the fabric should be consulted with Silt Sock.
