

Certificate of Compliance

Toxics in Packaging

WA State RCW 70A.222.040

Concentration levels

The sum of the concentration levels of lead, cadmium, mercury, and hexavalent chromium present in any package or packaging component shall not exceed the following:

- Six hundred parts per million by weight effective July 1, 1993.
- Two hundred fifty parts per million by weight effective July 1, 1994; and
- One hundred parts per million by weight effective July 1, 1995.

This section applies only to lead, cadmium, mercury, and hexavalent chromium that has been intentionally introduced as an element during manufacturing or distribution.

This certificate of compliance is for the following packaging or packaging component: *

(enter packaging or packaging component)

(Please include the brand, product name, and UPC of the product/packaging component if applicable.)

Our packaging formulation was last updated on _____(enter date).

This Certificate of Compliance is based on one or more of the following (please check all that apply):

- Analytical testing of total metals content conducted on behalf of this company.
- Direct knowledge of materials used.
- Certificates of Compliance from suppliers.
- Analytical testing data received from suppliers.

*If certifying more than one item, attach list of all products included in this certification, including the brand, product name, and UPC or similar identifying code under which it is sold.

Specifically:

1. We certify that the regulated chemicals—lead, mercury, cadmium, and hexavalent chromium—were not intentionally added to any package or packaging component during the manufacturing process.
2. We further certify that the sum of the incidental total concentration levels of lead, mercury, cadmium and hexavalent chromium present in any package or package component does not exceed 100 parts per million by weight.
3. We further certify that no materials used to replace the regulated chemicals are present in a quantity or manner that creates a hazard as great or greater than the hazard created by the regulated chemicals.
4. We will maintain adequate documentation of this certification for inspection upon request.

COMPANY NAME _____(enter name)

ADDRESS _____(enter address)

I _____(enter name) _____(enter title)

for the above-named business and I am duly authorized to make this certification. I have personally examined and am familiar with the information in this document and all attachments thereto, and I certify that, based on reasonable investigation, including my inquiry of the individuals responsible for obtaining the information, the submitted information is true, accurate, and complete to the best of my knowledge and belief.
